## **PSC Expands Services to Include SAS No. 70, AICPA WebTrust® and SysTrust®**

Clients can now bundle Visa CISP, MasterCard SDP and GLBA assessments with AICPA SAS No. 70, WebTrust and SysTrust from a single provider.

**SAN JOSE, Calif. – Feb. 8, 2005** – PSC, a leading company specializing in compliance and consulting services in the payments and security arena, has announced today that it has partnered with accounting and professional services firm, Sparrow, Johnson & Ursillo, Inc. to jointly launch the most complete suite of assurance services for companies accepting or processing electronic payments.

This new offering rounds out PSC's audit and assurance services. In the past, companies in the electronic payment processing industry had to work with multiple specialists, accountants and technology providers to complete internal and external compliance requirements. Clients can now bundle Visa CISP, MasterCard SDP and GLBA assessments with AICPA SAS No. 70, WebTrust® and SysTrust® from a single provider. PSC brings the specialized technology and information security skills along with financial accounting and audit services from SJU Sparrow, Johnson & Ursillo.

Tom Arnold, the Partner at PSC responsible for Assurance Services, says "The addition of the SAS 70 and AICPA TrustService offerings greatly strengthens our suite of Assurance Services and enable our clients to leverage common criteria of WebTrust, SysTrust, industry best practices, and PCI (Payment Card Industry) to maximize cost savings while building a unified approach to corporate regulatory compliance."

Steven Ursillo Jr., Director of Technology & Assurance Services at Sparrow, Johnson & Ursillo, says "PSC has a proven track record of providing expert consulting and specialist compliance services to companies that either accept or process electronic payments. In today's competitive business environment, our clients call on us for more than traditional accounting services. Our partnership with PSC significantly strengthens our ability to support our clients as a full service compliance provider."

### **About PSC**

PSC (Payment Software Company LLC) provides expert business services and solutions to organizations that require specialist compliance or consulting support in the areas of payments, risk or security.

The partners at PSC are veterans with combined experience of over 100 years in the electronic payment processing and information security industries.

PSC clients range in size from small business to Fortune 100. Most PSC clients accept or process payments or are technology companies in the payments or security arena.

### **About Sparrow, Johnson and Ursillo**

Sparrow, Johnson & Ursillo, Inc. is a progressive, full service accounting firm. While SJU serves a wide variety of clients, their hallmark is building close working relationships with each and every client.

Their staff of experienced Certified Public Accountants, Certified Information System Auditors, Certified Information Security Managers and Certified Fraud Examiners are educated and trained in auditing, taxation, business valuations, technology assurance, technology consulting, insurance loss accounting and forensic accounting.
